REASONS FOR ALLOWANCE

1. Claims 37-55 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 37 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "the subregions being modified by laser or printing against participating in the image reconstruction and having modified optical properties which can also only be seen from the respective direction of gaze" as set forth in the claimed combination. Claims 38-55 are also allowable based upon their dependence on claim 37.

The prior art of record, Lee teaches an optical security feature having at least one dual channel hologram for holographic reconstruction of different images from different directions of gaze. However, the prior art does not teach sub-regions which are modified by laser or printing against participating in the image reconstruction and having modified optical properties which can also only be seen from the respective direction of gaze and there is no motivation or teaching to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
